

SWOZI Cart Pro

Ingenious GPS line marking
for sports fields

Unbeatable Efficiency

By utilising GPS technology to position and layout sports fields, line marking is carried out effortlessly, quicker and more accurately. No matter what size or type of sports field, the SWOZI Cart Pro does the job!

- ✓ Time saving of up to 75%
- ✓ Reduced paint consumption
- ✓ Continuous line quality with 100% accuracy
- ✓ Marking carried out by a single person

Simple. Fast. Precise.

You can save over 4 hours set up time per field with the use of the industry's most versatile GPS line marking solution for turf fields.

No need for tapes, pegs or strings! Utilise GPS technology to achieve pin-point accuracy in seconds for initial and remarking set ups.

Football, baseball, basketball or a soccer field – you name it! SWOZI offers a template for nearly all sports.

Cart Options

SWOZI Cart Pro is available in different variations. Depending on your demands it can be simply pushed, connected with a ride-on unit or used autonomously.

- SWOZI Cart Pro push
- SWOZI Cart Pro ride-on
- SWOZI Cart Pro auto

High Precision

A solution for all requirements! Choose between GPS (outdoor applications) and laser tracker positioning (stadiums or indoor applications).

- GPS cm-accuracy (sub-inch accuracy)
- Laser tracker mm-accuracy

Marking Paint

No matter what line marking paint you prefer, the SWOZI Cart Pro is able to use **any type** of liquid grass line marking paint.
